

IV • SUGGESTIONS

**TOP SECRET GESS RUFF**

SUGGESTIONS

1. CIA should develop, as soon as possible, a set of guidelines to be used by NPIC in determining:
  - a. Types of products which may be released; e.g., film, PI Reports, COMINT, ELINT, other related collateral reports and ground photos.
  - b. Non-sensitive areas\* (Countries vs. specific segments; rural vs. urban, etc.)
  - c. Non-sensitive subjects\*
  - d. Security controls which will apply
2. NPIC should canvas available photography and basic collateral germane to problem.
3. An organizational meeting at the working level should be sponsored by GIMRADA, as soon as possible, with representatives of CIA, DIA, NPIC and AMS, so that any problem areas may be surfaced.
4. Following the selection of the Teams and the orientation of the Civilian Agency Chiefs, suggest GIMRADA arrange for team assignments and a point of contact in each participating organization.

\* This could be provided by AID if a properly worded and roundabout approach were made.
